PROFESSIONAL SUMMARY

A detail-oriented and passionate Frontend Developer with **2 years of experience** in building user-friendly and visually appealing web applications. Skilled in translating UI/UX designs into responsive and interactive websites using HTML, CSS, JavaScript, and React. Proficient in debugging, optimizing performance, and ensuring seamless user experiences. Adept at collaborating with cross-functional teams to deliver projects efficiently. Experienced in client communication, requirement gathering, preparing Functional Design Specifications (FDS), and coordinating with developers to assign tasks and ensure timely delivery. Continuously learning new technologies to stay updated with industry trends and enhance development expertise.

SKILLS

Front end Development : HTML5, CSS, JavaScript, ReactJS, jQuery, Bootstrap, Responsive Design, Web Development & Redux

VersionControl : Git, GitHub & Git Lab

Web Hosting & Management : Hostinger, Godaddy, Cloudflare, Netlify

Tools & Development : VS Code, npm

Collaboration & Management : Client Communication, Requirement Analysis, FDS Creation, Team Coordination & Task Assignment

EXPERIENCE

Numa Soft Technology Services Pvt. Ltd | Aug 2023 - Present

Frontend Developer

Software Company

- Collaborated with Numasoft to deliver comprehensive solutions in website design, logo design, eCommerce website development, and digital marketing.
 - Focused on creating visually compelling designs, developing robust online platforms, and driving impactful digital growth.
 - Conducted client meetings to gather requirements and clarify business needs.
 - Prepared Functional Design Specifications (FDS) to document client requirements and guide the development process.
 - Assigned tasks to developers, tracked progress, and ensured project milestones were delivered on schedule.
 - Acted as a bridge between clients and developers to ensure smooth communication and alignment on project goals.
-

PROJECTS

The Happy Screens (Sept-2023 to Nov-2023)

Client : The Happy Screens, Bangalore

Role : Front End Developer.

Tools : HTML, CSS, JavaScript, Bootstrap, JQuery

Key Responsibilities:

- Designed and developed user-friendly interfaces for The Happy Screens website, ensuring a seamless and visually engaging browsing experience.
- Implemented responsive design techniques to optimize the website for mobile, tablet, and desktop users
- Utilized HTML, CSS, JavaScript, and Bootstrap to create dynamic and interactive web components.
- Integrated SEO-friendly practices to enhance website visibility and user engagement.
- Collaborated with backend developers to integrate APIs for real-time booking and content management features.
- Collaborated with the design team to implement pixel-perfect UI based on wireframes and mockups.

Magic Number 5 (Mar-2025 to April-2025)

Client : Magic Number 5, Bangalore

Role : Front End Developer.

Tools : HTML, CSS, JavaScript, Bootstrap, React Js

Key Responsibilities:

- Designed and developed the front-end architecture of the Magic Number 5 Gaming App using React.js, ensuring an engaging and responsive user experience across all devices.
- Implemented seamless API integration for dynamic content rendering, handling real-time data communication with backend services through Axios and fetch-based calls.
- Developed user authentication features, including login/logout functionality, secure token handling, and error messages for incorrect credentials or failed login attempts.
- Utilized React Hooks and functional components to manage state, side effects, and component lifecycle efficiently, enhancing code maintainability and readability.
- Applied responsive design principles using CSS Flexbox, Grid, and media queries to ensure optimal performance on mobile, tablet, and desktop devices.
- Handled front-end form validations and error messages, improving user experience by providing real-time feedback and preventing invalid submissions.
- Incorporated accessibility best practices and SEO-friendly metadata to enhance reach and inclusivity.

Note: I have developed multiple projects using React.js. Magic Number 5 Gaming App is one example that showcases my skills in front-end design, API integration, and error handling.
